

TO OUR RECYCLING CITIZENS:

We now have a NEW LOCATION for the *Simpson County Recycling Center*, just east of Hwy 1008, on Ditmore Ford Rd. For those who have been using our old location at the County Maintenance Barn, this location is just on the opposite side of Hwy 1008, just past the F-S Soccer Complex.

We have 2 large containers: one is for compressed **CARDBOARD** material, and the other is compartmentalized for **PLASTIC, METAL CANS, & OTHER PAPER**.

“**Habitat for Humanity**” has another container on site for **ALUMINUM CANS ONLY**, which they use as a fundraiser for their mission.

***** COMING SOON! *****

There will soon be a second location inside the City, once the City's garbage contract switches over to Waste Management. Check back on the website for more details.
